MAKE HYGIENE MONITORING A HABIT FOR EVERYONE

With the App, anyone can check cleanliness easily

Measure

Easy-to-use, results within 10 seconds

Swab

Swab the sample on a 10 x 10cm area, and insert the swab into main body

Measure

Shake well and insert into the Lumitester

Analyze

Measurements (RLU) displayed within 10 seconds

Understand

App to automatically analyse data

Recorded data can be displayed in time-series by registering with the Lumitester Smart App. Inspection pass rates are automatically graphed and data can be visualized. Employees will be more conscious of hygiene, and will maintain a high standard of environmental sanitation, which will help build greater trust in your business.

Display trend analysis for each inspection

Visualize overall inspection scores through graphs

Connect

Cloud data management to combine data from multiple facilities

Data will be stored in the cloud and can be accessed from anywhere in the world. This will allow fast detection and response to any problems that may arise.

Lumitester™ Smart

Product code: 1902653

Measurement time	10 seconds
Detection	ATP + ADP + AMP
Detection method	Luciferase-Enzyme Assay
Unit of Measurement	Relative Light Units (RLU)
Included Accessories	2 alkaline batteries (AA), Cleaning brush, USB cable, Strap, Quick Manual

- Use for hygiene monitoring and other applications where detection of organic residues needs to be performed.
- Lucipac A3 and Lumitester Smart should not be used for counting general living bacteria or detecting specific pathogens.

LuciPac™ A3 Surface

Product code: 1702671 100 swabs/kit

LuciPac™ A3 Water

Product code: 1702672 100 swabs/kit

Storage Condition	2-8°C (do not freeze)
25°C	14 days (unopened)
30°C	5 days (unopened)
Expiry	15 months after manufacturing date
